(Time Given for Task: 7 Day's)

Completed Task:

- Admin can manage the website[Done]
- Administrator login is required for login[Done]
- Manage the product's in store[Done]
- Categorize the Product's[Done]
- Admin can List the all Sign Up User's[Done]
- Admin can Search all sign up User's[Done]
- Admin can see Report Filtered by purchase Date. [Done]

(Task Completed in Time: 4 Day's)

Introduction:

This is my Simplilearn Phase-3 Project, this project mainly focus on Online Shoes Shopping. In this project we have 25 Module's.

This project help's for Shoes Shop owner to Sell their products online and Customer can buy this product's online with full security.

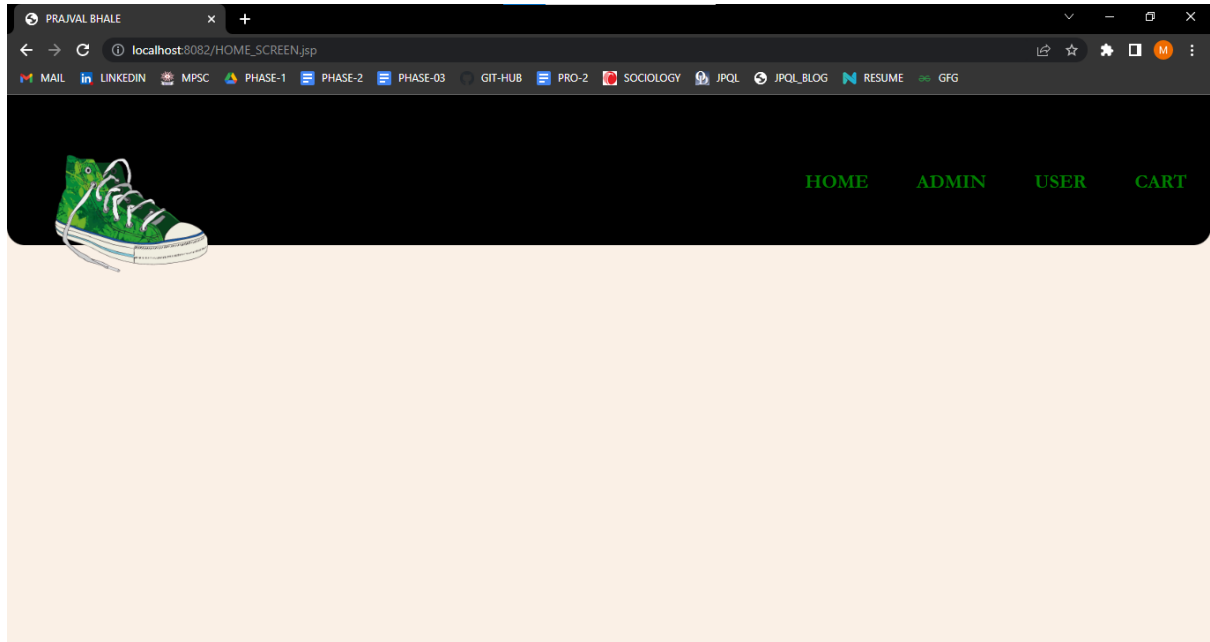

For purchase this product User must be Sign-Up and then login with same credentials', after this User can able to buy any product from this web site which is present in this website.

User also can see his Order list, Can add into the cart, etc. then user can logout

User Module's Start:

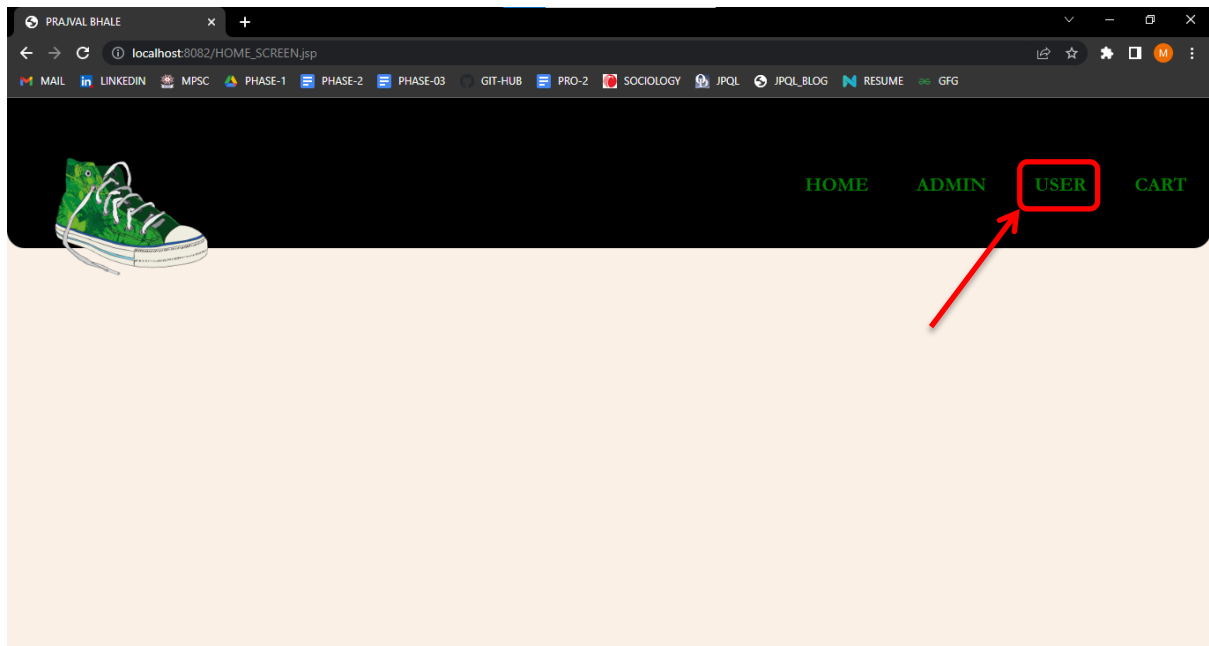

Module No -- 1].

This is first page of website this page can access anyone who comes on website.

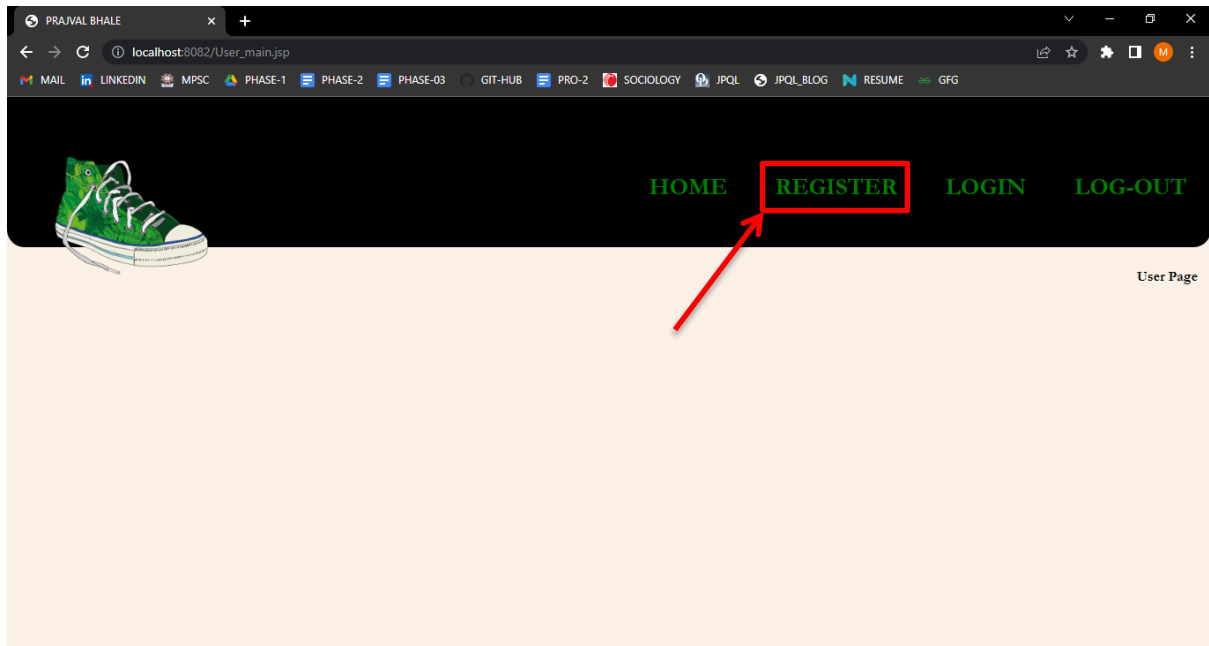

Module No -- 2].

When any new user comes on this we site he/she need's to register our self on this portal like user comes on home page first then click on “User” then he/she goes on next page.

Module No – 2.1]

In this module “USER” must be register for further process like Purchase Product, etc. User click on “**REGISTER**” then next page will open.

Module No – 2.2]

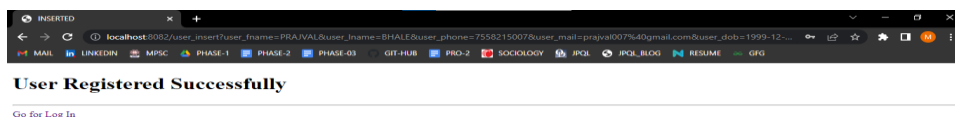

In this page User provide basic detail's for Registration, after filling this detail's Click on **“Register”** then Automatically User Login Credential's will be created, But Remember First Name and Conform Password(user can forgot password using phone number).

The screenshot shows a web browser window with the URL `localhost:8082/insert_user.jsp`. The page title is `SpartyShoes.com`. The main heading is **USER REGISTRATION...!**. Below the heading is a registration form with the following fields:

First Name :	<input type="text" value="PRAJVAL"/>	Last Name :	<input type="text" value="BHALE"/>
Phone Number :	<input type="text" value="7558215007"/>	E-mail :	<input type="text" value="prajval007@gmail.com"/>
Date Of Birth :	<input type="text" value="01-12-1999"/>	Password :	<input type="password" value="....."/>
Conform :	<input type="password" value="....."/>	State :	<input type="text" value="MAHARASHTRA"/>
District :	<input type="text" value="PUNE"/>	Taluka :	<input type="text" value="INDAPUR"/>
Pin Code :	<input type="text" value="413106"/>	Gender :	<input type="text" value="MALE"/>

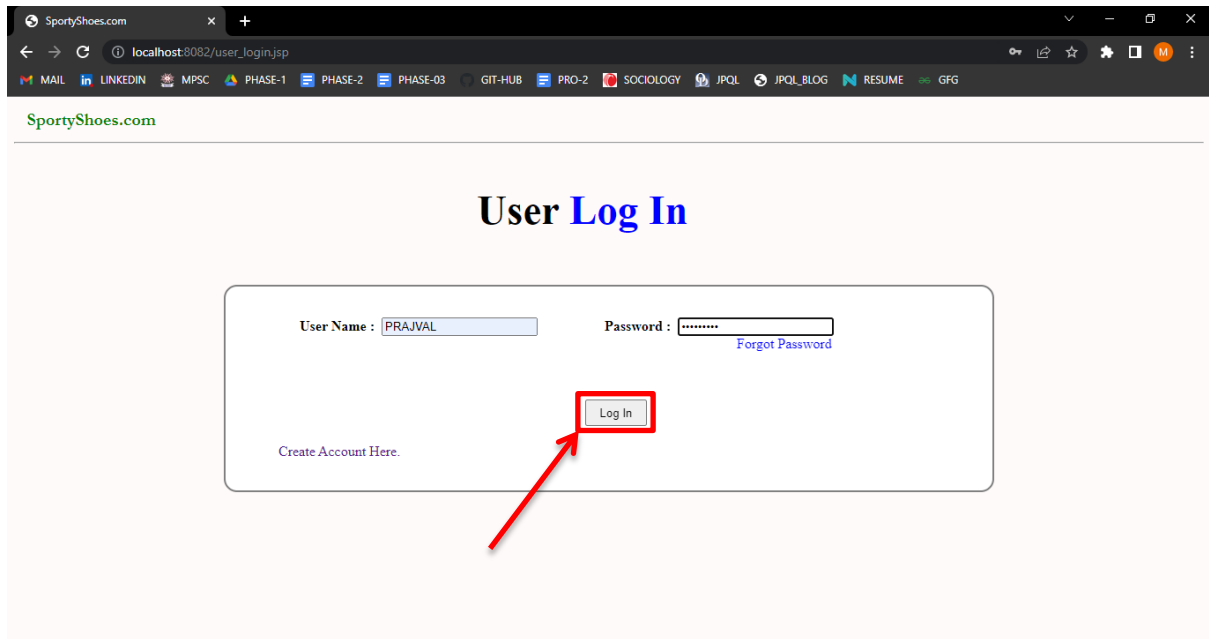

At the bottom of the form, there is a **Register** button and a [Log In](#) link. A red arrow points to the **Register** button.

after Successfully registration user get this message-

Module No – 2.3]

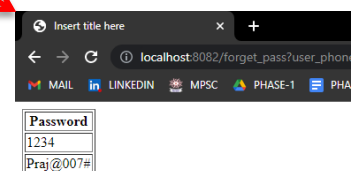

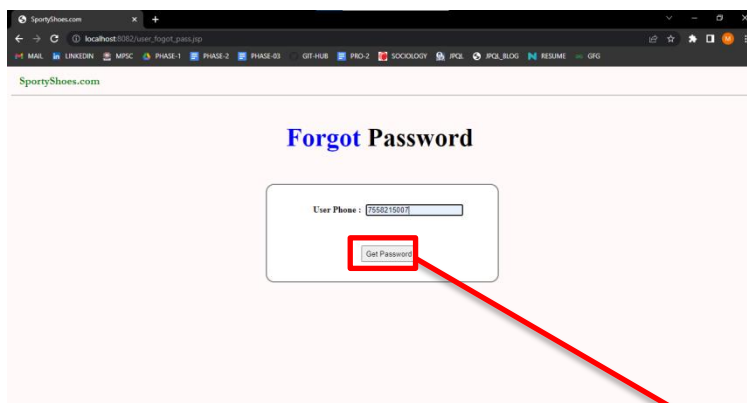

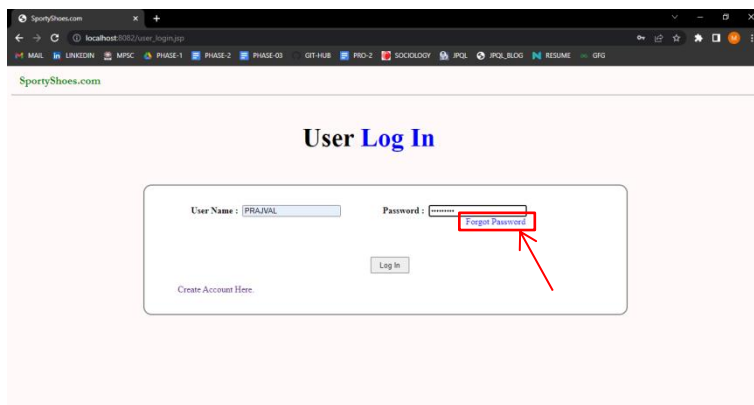

After user successfully registration user automatically Redirect to login page [2.1]. after this user click on “**login**” and go next page.

The screenshot shows a web browser window with the address bar displaying 'localhost:8082/user_login.jsp'. The page title is 'SportyShoes.com'. The main heading is 'User Log In'. Below the heading is a login form with two input fields: 'User Name : PRAJVAL' and 'Password : *****'. There is a 'Forgot Password' link next to the password field. Below the password field is a 'Log In' button, which is highlighted with a red box and a red arrow pointing to it. At the bottom left of the form, there is a link that says 'Create Account Here.'.

Module No – 2.4]

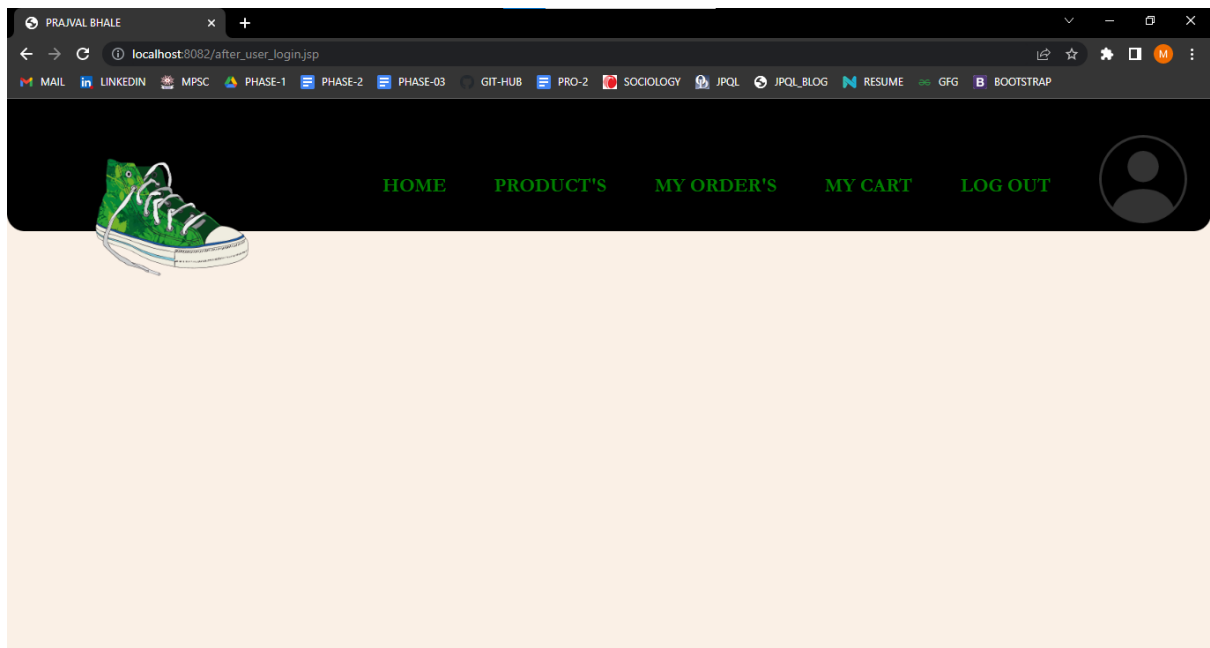

What happen when user forgot his/her password? then user can forget password by using his/her Registered Phone Number by clicking on “**Forgot Password**”. After click on this following screen will open and put Phone Number and Get your Password Here like:

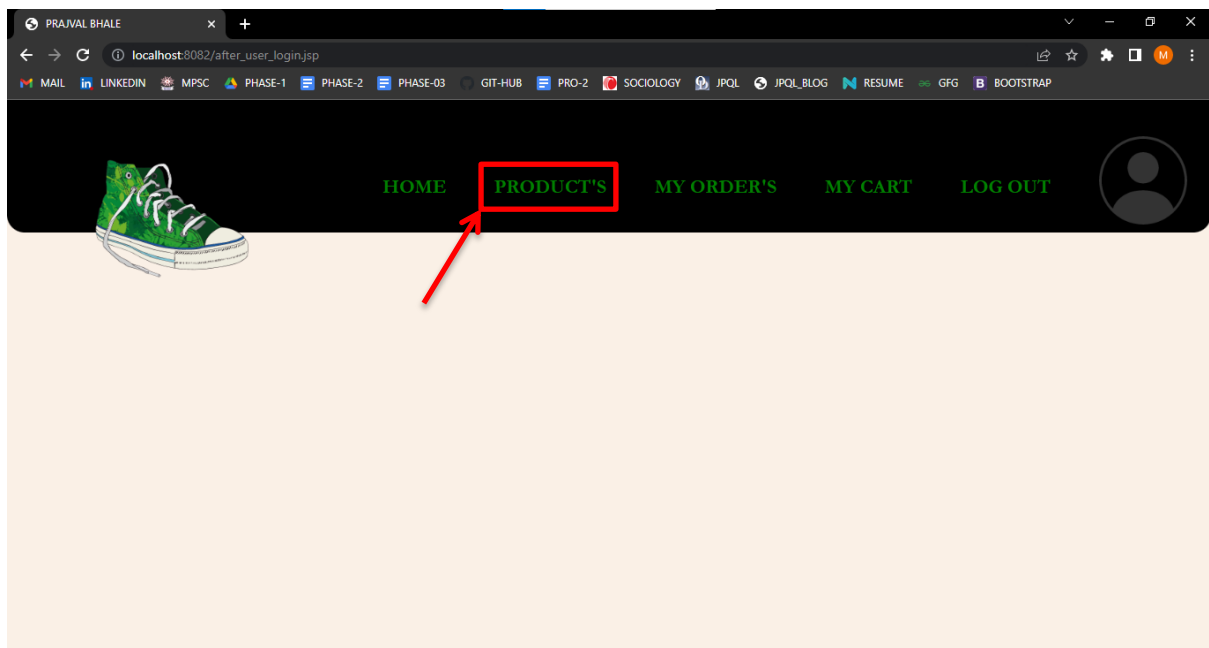

Password
1234
Pray@007#

Module No – 3]

After user get successfully entered into the his home page like following :

If user want's to buy or see the product's then user click on
“PRODUCT'S”
